

## ***Healing Touch Treatment Information***

***What is the cost of a Healing Touch Treatment?*** \$75 per session

***Payment options:*** Venmo, PayPal, Zelle, and credit cards now accepted

***In our very first session, set aside 90 minutes*** as we will review your Client Intake forms which you may have emailed to me or brought with you. I will answer all your Healing Touch questions and together we set goals for treatment. You simply relax on the massage table (fully clothed) while, with light touch or off-body hovering, I use specific HT techniques to clear energy blockages and re-establish energy flow. You might feel temperature changes, vibration or tingling or you might feel nothing. Results might be felt immediately or over the next few days. A post-treatment feedback discussion follows the 45-50 minute “on the table” session, including how often you might consider receiving Healing Touch.

**Total appointment time is 90 minutes for this first session.**

***Subsequent treatments*** begin with an update on how you are doing, mutual goal setting, time on the table, and our follow up feedback chat.

**Total appointment time is 60-75 minutes.**

***Distance? Are you kidding me?*** Not at all. Because energy is not limited by time or distance, Healing Touch works just as powerfully whether working with someone one-on-one in-person or at a distance (Zoom is a good option!) You relax in your home while treatment takes place on the table in my home. We communicate through Zoom, FaceTime, or even a traditional phone call.

The Covid pandemic offered many opportunities to prove the power of distance healing.

***Note: Treatment price is the same as in-person.***
